**POLICY STATEMENT:**

All Institutional Advancement initiatives are facilitated through the Office of the President who has control over all the College's fund-raising efforts. These efforts in securing funding to support the College priorities, goals and objectives must be developed in concert with the Institution's Strategic Plan, specifically institutional and student development, faculty and staff professional development, and institutional equipment and facilities acquisitions. All aspects of grant procurement, management and documentation are monitored by the appropriate executive administrator(s). e.g. Chief Financial Officer, Chief Academic Officer, Executive Dean of research and Planning, Executive Dean of Student Services and Academic Support, and the Vice President for Fiscal Affairs. Each grant submission must be approved by the President of the College.
